'Soft touch', momentary action, push button (two on two zone)

Cabling supplied

2.5 metre screened, comprising microphone pair plus access/signalling pair

Dimensions

Base – 140mm depth x 110mm width x 40mm maximum height
Gooseneck – 260mm

Finish

Desk Top – Pearl white powder coat
Desk Base – Satin black powder coat
Gooseneck & microphone – Matt black

Order Codes

BUD100 – Single zone, moving coil microphone
BUD100/E – Single zone, electret microphone
BUD200 – Two zone, moving coil microphone
BUD200/E – Two zone, electret microphone

MOVING COIL (STANDARD) MICROPHONE

Sensitivity

Suitable for all amplifiers with at least 500uV (0.5mV) sensitivity

Impedance

600ohms

Characteristics

Polar diagram approximates to cardioid, presence lift at 3KHz

Frequency Response

±6dB: 100Hz to 8KHz

C100 ELECTRET (OPTION)

Sensitivity

Suitable for all amplifiers with at least 1mV sensitivity.

Impedance

600ohms unbalanced

Characteristics

Omni-directional

Polarizing voltage

4.5 to 15.0v maximum, applied between polarizing lead and ground.
